#### **Job Family**

Medical

---

#### **Main Purpose**

Help, accompany and transport patients from a place to another within the health facility, according to the instruction from the medical team and following hygiene standards, in order to ensure their safety.

---

#### **Accountabilities**

- Transport patients (e.g. from patient's room to the operating theatre, from his bed to the x-ray room, from the consultation to his room, etc.), assisting and helping them at all times.
  - Assist nursing staff with patient needs (i.e. lifting patients up, lying them down, bathing them, dressing them, changing bed linen or, if required, giving them their medicines)
  - Inform medical staff about any possible serious problem or complication during shift (i.e. patients, equipment, etc).
  - Ensure safe transport taking into consideration the state/conditions of the patient and the instructions given by nursing team or doctors.
  - Keep the patients and families informed about the place they are taking the patient to.
  - Follow at all times the universal hygiene standards and the instructions of health professionals.
  - Ensure the disinfection of his/her material (stretch, etc.).
  - Report all important information and assist in other tasks upon request.
- 

#### **Education**

Literacy required.

---

## Experience

None is required.

---

## Languages

Local language essential. Mission language desirable.

---

## Competencies

- Commitment.
  - Flexibility.
  - Stress Management.
  - Results.
  - Teamwork.
  - Service.
